Education

Bachelor's degree in Informatics:
Robotics and Intelligent Systems

Currently

Completing a Bachelor's degree in
Philosophy with **Linguistics**

Aiming towards a Master's in
Embeeded Systems

Programming

Object Oriented Development

Backend/Servers systems

POSIX systems

Software distribution

Continuos Development/Integration

Open Source contributions

Databases and SQL

Experience

10 years in the **maritime industry**

Plenty of contributions to
the open source community

Currently

Employed as a **teacher** by
Learnist since early 2022

Primary Programming languages

C	Java
Python	POSIX sh

Cool tools I use a lot

grep/sed	awk	git
vim	ssh	GIMP

Other qualities

Electronics

Project management

Teamwork and Workflow

Documentation (creating and using)

Languages

English	Norwegian
Spanish	Catalan

Courses

Calculus I & II

Linear Algebra

Discrete Mathematics

Object-Oriented Programming I & II

Systems, Requirements and Consequences

Problem Solving with Abstract Languages

Digital Technique and Computer Architecture

Introduction to Computing Technology

Algorithms and Data Structures

Introduction to Operating Systems and Data Communications

Operating Systems

Introduction to AI and ML

Introduction to Applied Statistics

Mechatronics

Digital System Design

Examen Philosophicum

Introduction to Philosophy History

Introduction to Epistemology and Philosophy of Science

Introduction to Metaphysics and Philosophy of the Consciousness

Epistemology

Phonetics and Phonology I & II

Introduction to Formal Logic

Conferences

econf 2022: organizer and speaker

«On running a custom s6 init»

Participant

NeovimConf 2022

Nordic Developer Convention 2021

Certificates

Crowd and Crisis Management

Safety Course for Seafarers

Boat Driver License
